

Scientific Program

The IAP 2024 Congress's comprehensive scientific program will be composed of Short Courses, Symposia, Companion Meetings and Long Courses, encompassing all aspects of the multidisciplinary field of pathology. On top of that, we are proud to announce that IAP 2024 will be held with the partnership and participation of 14 international and national societies, allowing for a diverse representation of expertise and knowledge and enriching the program we are preparing for you.*Program is subject to change

Program Highlights

Liron Pantanowitz – *“Pixels to Predictions Navigating the Application of Digital Imaging & AI in Pathology”*
